TASKBOARD

Product Backlog	In Progress	Completed
User Story 1:As a supervisor, I want to see all the sprints you will have, and tasks in all the days of a sprint for each member, so that I can be sure that everyone is working on something Sprint 2: Product backlog		Product backlog Presentation deck
User Story 2: As a supervisor, I want everyone to submit the presentation deck so that I can be sure that everyone has access to all the group work. Sprint 2: Presentation deck		
User story 3: As a group, we need to appoint a group member who will work on the frontend so that we can make sure that there is no gap in the group that will hinder us from completing the project on time. Sprint 1: Member appointment		Member appointment

WALKTHROUGH

1. What do we need to do to advance this piece of work?	We need to understand how to properly design the product and the structure that the supervisor wants to see on our product backlog.
2. Is anyone working on anything that is not on the board?	Yes, some members are working on the tasks of their roles, which are not included on the task board.
3. What do we need to finish as a team?	We need to complete editing the brand guide and submit it. Present the product backlog to the supervisor and appoint a member who will work with Olwethu on the frontend since Sinalo has left.
4. Are there any bottlenecks or blockers to the flow of work?	It took us some time to understand the structure that the supervisor wanted to see on the product backlog.

LOGBOOK

Date:		
Monday	1. What did I complete since the last standup?	
	2. What am I planning to complete between	

	now and the next standup?	
	3. What are my impediments (or risks or problems)?	

Date:	21/07/2026	
Tuesday	1. What did I complete since the last standup?	Gathering more information about the role and tasks of the member who has left, to check if I am fit enough to fill it based on my own skills.
	2. What am I planning to complete between now and the next standup?	Domain code review and refactoring
	3. What are my impediments (or risks or problems)?	I have schoolwork from my other modules to pay some attention to.

Date:	22/07/2026	
Wednesday	1. What did I complete since the last standup?	Domain code review and refactoring
	2. What am I planning to complete between now and the next standup?	Factory code review and refactoring.
	3. What are my impediments (or risks or problems)?	Sinobawo included all factory methods of the domain classes she was working on in the same file, while I created different files for each factory for the entities I was responsible for.

Date:	23/07/2026	
Thursday	1. What did I complete since the last standup?	Factory code review and refactoring
	2. What am I planning to complete between now and the next standup?	Editing the existing product backlog.
	3. What are my impediments (or risks or problems)?	I was not sure of the structure that our supervisor wanted to see in our product backlog. I wrote it based on how it made sense to me.

Date:	24/07/2026	
Friday	1. What did I complete since the last standup?	Editing the existing product backlog.
	2. What am I planning to complete between now and the next standup?	Creating a new product backlog.
	3. What are my impediments (or risks or problems)?	The new product backlog had 16 sprints, and each sprint had four days, subtasks, labels, and user stories. The workload was too much for one person, but I managed to create all 16 sprints with days and labels. I then stopped at sprint 3, day 3, when writing user stories and asked my teammates to take over.
