TASKBOARD

Product Backlog	In Progress	Completed
User Story 1 The team has been restructured to five team members because one team member has left. Tasks Adjustments of team member roles.	Adjustments of team member roles	Presentation deck. Present the business idea and solution to our supervisor.
User Story 2 We have to present our business idea and solution to our supervisor for approval. Tasks Prepare the presentation deck. Present the business idea and solution to our supervisor.		

WALKTHROUGH

1. What do we need to do to advance this piece of work?	We need to get feedback about the business presentation from our supervisor so that we can have a way forward and have discussions on how to close the gap caused by the team member who left the organization.
2. Is anyone working on anything that is not on the board?	No.
3. What do we need to finish as a team?	We need to have a clear road path and ownership of our business deliverables and tasks
4. Are there any bottlenecks or blockers to the flow of work?	The lack of feedback from the business presentation is inhibiting our progress because we do not know if our business idea and the solution we have provided are valid, and if our supervisor approves them or not.

LOGBOOK

Date:	14/07/2026	
Tuesday	1. What did I complete since the last standup?	Back-end code controllers.
	2. What am I planning to complete between now and the next standup?	Adding important details in a presentation deck.

	3. What are my impediments (or risks or problems)?	I was not sure about the important details that are needed to successfully present our problem statement and solutions. We already had some parts of our presentation deck designed on the Canvas software. I risked continuing to design on Canvas, then I later converted the slides from PDF format to PowerPoint as we were instructed by our supervisor.

Wednesday	1. What did I complete since the last standup?	Adding important details to a presentation deck.
	2. What am I planning to complete between now and the next standup?	Final editing of the presentation deck using our color palette and typography.
	3. What are my impediments (or risks or problems)?	I took a risk of completing the presentation deck on the same day as the presentation.

Thursday	1. What did I complete since the last standup?	Final editing of the presentation deck using our color palette and typography.
	2. What am I planning to complete between now and the next standup?	Reviewing the business presentation.
	3. What are my impediments (or risks or problems)?	We received no feedback after the presentation because of the time limits, so we cannot proceed with our tasks.

Date:	17/07/2026	
Friday	1. What did I complete since the last standup?	Reviewing the business presentation.
	2. What am I planning to complete between now and the next standup?	Gathering more information about the role and tasks of the member who has left, to check if I am fit enough to fill it based on my own skills.
	3. What are my impediments (or risks or problems)?	As a group, we have not had a discussion about who will be taking the role and tasks because everyone already had a role and tasks that were assigned to them.

REFLECTION
AREAS FOR IMPROVEMENT

- As a team, we need to improve the response speed when a team member is asking for clarification on a task that they are working on, because it hinders progress for that team member.
- We need to try to communicate with other team members with more respect and patience.
- We all need to engage in discussions and stop keeping quiet, and leave some engagements to some team members.
- Putting more effort into teamwork because it makes the tasks easy to accomplish for everyone.

LESSONS LEARNED

- I have learnt that it is much easier to accomplish tasks when we are all putting effort into the work.
- I learnt that it is important to always ask for your team members' views on some tasks because some will have better views than you, the person to whom the tasks are assigned.
- It is more important to be mindful of your color combination because they hold the power to ruin the look and feel of the whole presentation.
- Consistency of typography, colors, shapes, and images is important because they define who you are as a brand, and they also tell your story.
